

# Welcome to Chemistry's Equality, Diversity and Inclusion Sharepoint Site

The Department of Chemistry is fully committed to **Equality, Diversity and Inclusion (EDI)**. We believe that excellence in research, teaching and student achievement is enhanced by a vibrant and diverse community that is fairly and openly recruited and supported.

## Chemistry EDI Suggestions Box

The link below takes you to an electronic 'suggestions box' for your comments on Equality, Diversity and Inclusion - practice and policy in the Department of Chemistry and the University. Your views, positive and negative are always helpful.

This box is strictly anonymous, but if you wish to leave your details for follow-up discussion, then you are very welcome to do so. If your comments are most relevant to a particular staff or student grouping, this would be helpful to indicate this too.

Richard and Matt, EDI Co-Chairs

---

## Find out more about the work of our Chemistry EDI Committee here

Equality, Diversity and Inclusion matters are addressed at all of the departmental committees and representatives from all staff and student groups in the department meet regularly as the Chemistry EDI Committee.

Co-chairs: [Matthew Kitching](#) and AnnMarie O'Donoghue

There are currently vacancies for undergraduate student representatives on the EDI. If you would like to get involved, please contact the co-chairs.
